

RESOLUTION TO PROTECT THE PEOPLE FROM WEATHER MODIFICATION, GEOENGINEERING, AND DELIBERATE ATMOSPHERIC MANIPULATION

Submitted to the ~~Spokane~~ County Republican Central Committee

WHEREAS,

The Declaration of Independence recognizes that all people are endowed by their Creator with the unalienable Rights to Life, Liberty, and the Pursuit of Happiness; and

The Constitution of the United States was established to secure the blessings of liberty, protect private property, and limit governmental power over the lives of the people; and

The Ninth and Tenth Amendments affirm that powers not delegated to the federal government are reserved to the States and to the People; and

The people have an inherent right to breathe clean air, drink clean water, enjoy their private property without interference, and live free from undisclosed environmental experimentation or government actions affecting their health and livelihoods; and

Any intentional attempt to alter atmospheric conditions, weather patterns, solar radiation, precipitation, or other natural environmental processes raises profound constitutional, ethical, environmental, agricultural, economic, and national security concerns; and

Government derives its just powers from the consent of the governed, and meaningful consent cannot exist where governmental or private activities affecting the public are concealed from public scrutiny; and

The Republican Party has historically defended constitutional government, individual liberty, private property rights, limited government, transparency, and accountability under the rule of law.

NOW, THEREFORE, BE IT RESOLVED,

That the ~~Spokane~~ County Republican Party declares that no governmental entity, military agency, contractor, corporation, nonprofit organization, university, foreign government, or private individual should possess the authority to intentionally manipulate atmospheric conditions or weather systems without the explicit authorization of the people through laws enacted by their elected representatives.

BE IT FURTHER RESOLVED,

That the Republican Party supports legislation permanently prohibiting any intentional weather modification, geoengineering, atmospheric aerosol release, cloud seeding, solar radiation modification, ionospheric manipulation, or other deliberate atmospheric intervention conducted within, over, or affecting

the United States unless expressly authorized by law following complete public disclosure, independent scientific review, and informed public consent.

BE IT FURTHER RESOLVED,

That every agency, contractor, corporation, nonprofit organization, research institution, or other entity involved in atmospheric modification research or operations should be required to fully disclose all funding sources, contracts, technologies, substances released, operational objectives, environmental monitoring data, and health impact assessments, with such information readily available to the public.

BE IT FURTHER RESOLVED,

That any individual or entity found by a court of competent jurisdiction to have knowingly conducted unlawful atmospheric manipulation resulting in demonstrable harm to human health, agriculture, water resources, property, wildlife, or the environment should be held fully accountable under applicable criminal and civil law, and should bear full financial responsibility for damages caused.

BE IT FURTHER RESOLVED,

That the Republican Party supports legislation creating meaningful criminal penalties for unauthorized atmospheric manipulation, together with expanded civil remedies allowing injured individuals, farmers, businesses, counties, tribes, and states to recover damages from those responsible.

BE IT FURTHER RESOLVED,

That no corporation, nonprofit organization, governmental agency, public official, contractor, or other entity shall be granted immunity from investigation or prosecution for violations of laws governing environmental protection, public health, fraud, conspiracy, or other applicable statutes related to unlawful atmospheric intervention.

BE IT FURTHER RESOLVED,

That elected officials have a constitutional duty to protect the lives, liberty, property, and health of the American people before advancing experimental environmental programs lacking public consent and legislative authorization.

BE IT FINALLY RESOLVED,

That the Spokane County Republican Party urges the Washington State Republican Party, the Washington State Legislature, the United States Congress, and the Executive Branch to adopt policies that:

1. Permanently prohibit unauthorized weather modification and atmospheric manipulation.
2. Require maximum transparency regarding any atmospheric research or operations.
3. Protect whistleblowers who report unlawful conduct.
4. Ensure independent oversight and public accountability.

5. Preserve the constitutional rights of the American people to life, liberty, property, due process, and equal protection under the law.

The Spokane County Republican Party further declares that the atmosphere is a public trust essential to all life, and that any intentional manipulation of natural atmospheric systems should be subject to the highest level of public oversight, constitutional scrutiny, and legal accountability consistent with the rule of law.

Adopted this 18 day of July, 2026, by the LUIS DACH #4469 Precinct Caucus and submitted to the Spokane County Republican Central Committee for inclusion in the County Republican Platform.
